

CONTACT LENS PROFESSIONAL SERVICE POLICIES AND FEES

Thank you for placing your trust in the doctors and team at Broadway Vision Source for your contact lens needs. Our goal is to exceed your expectations of excellence in contact lens-related evaluations, pricing, and convenience. We will provide you with instructions on proper wearing habits, trial contact lenses, proper lens maintenance, appropriate wearing schedule, lens replacement schedule, and appropriate follow-up care.

Here are a few guidelines and policies regarding contact lenses at Broadway Vision Source, as well as our contact lens evaluations, and professional fees:

- Contact lenses are considered to be medical devices that are regulated in order to minimize potentially serious complications.
- State and Federal regulations require a contact lens evaluation every two years before a contact lens prescription can be issued. Under normal circumstances, contact lens prescriptions in the State of Washington are good for 2 years before expiring. Shorter expiration dates may occur due to special circumstances that require it (where complications are more likely).
- Contact lens evaluation fees are separate from and are not included in a general eye examination.
- New patients (not a current patient of Broadway Vision Source) who would only like to be fitted with contact lenses without a concurrent eye exam must have documentation of having had an eye exam within 6 months. Documentation may be acquired by
 - Providing a photocopy of your latest exam records, or
 - Signing a records release authorization to acquire your records from your previous eye doctor.
- For established patients of Broadway Vision Source, we allow up to a 1-year period from your latest eye examination with us to pursue contact lens fitting.
- Prior contact lens wear does not ensure uncomplicated wear, and it is common for contact lens wear to become more complicated with age. If the need arises for further care and upon discussion with you, additional fees may be charged for additional services.
- Professional fees are not refundable.
